PREFACE.

THE present edition of the COUNTY DIRECTORY OF SCOTLAND has been compiled with great care from the most reliable sources, and the Publishers trust that the revised arrangement adopted, and the additional items of information given, will greatly increase its utility as a work of reference.

The number of names inserted is very considerably greater than in the former editions, and, with the exception of the cities of Edinburgh, Glasgow, Aberdeen, and Dundee (where local Directories are published), lists of the Clergy of every denomination, Notaries-Public, Medical Practitioners, Bankers, and Hotel-keepers, have been appended to the towns and principal villages, so that this department of the work forms a comprehensive Clerical, Legal, Medical, and Banking Directory for Scotland. The further addition of the Railway Stations throughout the country, with the names of the respective Station-agents, will, it is believed, meet a want not unfrequently experienced, and enhance the usefulness of the publication.

To the Noblemen and Gentlemen who have favoured them with information, the Publishers beg leave to express their grateful acknowledgments; and their best thanks are, at the same time, due to the Postmasters of Scotland, without whose co-operation and aid, the degree of correctness which, it is hoped, characterises the present edition, could not have been attained, and who have on the present, perhaps even more than on previous occasions, willingly given their valuable assistance.

Although no pains have been spared to ensure accuracy, errors and omissions in such a work are, to a certain extent, unavoidable, and any corrections or suggestions forwarded to the Publishers will be carefully attended to in future editions.

EXPLANATIONS.

As a general rule, the last word in the address of every letter, &c., should be the name of the Post-office from which the letter is to be delivered, and the Directory has been prepared with a view to give in each case the postal address a letter should bear to ensure direct transmission to its destination. The names of the Sub Post-offices are added in *italics*, and the name of the County is given, in the instances in which it is requisite or desirable that this should form part of the address.

It may not be unnecessary to mention, that letters for Scotland, posted in England or Ireland, should have the name of the Country, or the letters "N. B.," added to the other part of the address.

Throughout the *First* Part of the Directory, the postal address appears between the colons, after the name of the residence, and this is followed by the name of the owner or occupant. In the *Second* Part, this order is *reversed*, the name of the owner or occupant appearing first, followed by the residence and postal address.

The names of the Post Towns and Sub-offices in Scotland (distinguishing Money Order Offices and Savings Banks) are inserted in the First Division of the Directory in the order in which they occur in the alphabetical arrangement.

II.—CIRCULATION OF LETTERS IN SCOTLAND.

1. The deliveries and despatches of letters, &c., in Scotland are, for the most part, regulated by the hours of the day and night mails from and to London, *via* the Caledonian Railway, excepting the counties of Berwick, Selkirk, and part of Roxburgh and Haddington, the south mails for which, as well as the local letters, are conveyed by the North-Eastern and North British Railways. The branch posts throughout the country, as a general rule, work *from* the arrival and *to* the despatch of one or other of the London mails, diverging from the various points on the main lines of communication between Carlisle and the south-west of Scotland, on the one hand, and Edinburgh, Aberdeen, and the northern counties on the other.

2. The first, or *day* mail, leaves the General Post-Office, London, at 8.30 A.M., arriving at the intermediate stations between Carlisle and Aberdeen late the same night, or early the following morning, and at Inverness at 1.55 P.M. The return up mail, leaving Aberdeen at 4.15 P.M., proceeds southwards from Carstairs Junction with the mails despatched from Edinburgh and Glasgow, respectively, at 9.10 and 8.45 P.M., arriving in London at 10 A.M.

3. The second, or *night* mail, leaving the General Post-Office, London, at 8 P.M., arrives at Dumfries, Glasgow, Stirling, Perth, and Dundee, in time for a morning or early forenoon delivery; (in Edinburgh *both* the London mails are delivered together, the distribution commencing about 8 A.M.;) at Aberdeen at 12.50 P.M.; and at Inverness at 7.10 P.M., in time for an evening window delivery. The return *up* mail is despatched from Inverness at 6.30 A.M., from Aberdeen at 12.13 P.M., and from Edinburgh and Glasgow at 5.50 and 5.43 P.M., respectively, arriving in London at 5.5 A.M. There is no delivery of letters in London on Sundays.

4. The postal communication between Fifeshire, Edinburgh, and the eastern counties of Scotland, and the north-eastern counties of England, is chiefly by the North-Eastern and North British Railways. The trains (conveying also the *London* mails for Berwickshire, Selkirkshire, and part of Roxburgh and Haddington shires) arrive in Edinburgh at 11.21 A.M. and 8.30 P.M., and depart at 1.45 P.M. and 5.30 P.M.

Irish Mails.

5. Letters between Scotland and Ireland are despatched and received by both the London mails, *via* Holyhead. Letters for Belfast and the north of Ireland, posted in Edinburgh up to 3.30 P.M., in Glasgow up to 6.15 P.M., and in the north in time for the London up night mail, are sent *via* Greenock and Belfast by steamer, leaving the former place at 8 P.M., daily, Sundays excepted. A return mail is likewise received from Belfast and the north of Ireland at Greenock at 5 A.M., except on Monday mornings.

Mails for the Orkney Islands.

6. From the 1st April to the 30th September the mails are despatched daily, excepting Sunday, from Thurso, in Caithness, at 2.35 P.M., returning from Stromness at 4.45 A.M. During

the winter months the mails are despatched on alternate days only, from Thurso at 2.45 P.M., and from Stromness at 9.45 A.M. The distance is 30 miles.

Mails for the Shetland Islands.

7. The mails for the Shetland Islands are despatched from Aberdeen every Friday evening, arriving at Kirkwall on Saturday, and at Lerwick on Sunday morning; returning from Lerwick to Aberdeen every Monday at 6 and 10 P.M. alternately, and from Kirkwall to Aberdeen every Tuesday at 6 A.M. during the summer, from April to October. In winter the mails are conveyed direct from Aberdeen to Lerwick by a sailing packet, the despatch and arrival of which are uncertain. The distance direct is about 200 miles.

Mails for Skye and the Hebrides.

8. The Skye mails are despatched by mail car, from Dingwall, at midnight, on Mondays, Wednesdays, and Fridays, arriving at Broadford at 12.57 P.M., Portree at 5.46 P.M., and Dunvegan at 10.6 P.M. The return mails, despatched from Dunvegan at 12.50 A.M., on Tuesdays, Thursdays, and Saturdays, arrive at Dingwall at 12.46 the following mornings, in time for the south mail, thence at 3.12 A.M.

A bag for *Portree* is also conveyed by steamer from Greenock, twice a-week in summer, and once in winter.

Mails for the Long Island are conveyed between Dunvegan, in Skye, and Lochmaddy, in North Uist, three times a-week in summer, and twice a-week in winter.

Mails to and from Lewis and Harris are conveyed by steamer between Greenock and Stornoway, twice a-week in summer, and once a-week in winter, leaving the former on Mondays and Thursdays at 5.40 P.M., and the latter on Mondays and Wednesdays. In winter the despatch from Greenock takes place on Thursday, and from Stornoway on Monday. There is also a postal communication with Lewis once a-week in winter, by sailing packet, between Stornoway and Aulbea, on the Ross-shire coast, when there is only one mail by steamer *via* Greenock.

“ “ more than 2 oz. “ “ 3 oz.	6d.

and so on; twopence being charged for every additional ounce.

As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were prepaid. Unless three quarters, at least, of the postage of a letter weighing more than 4 oz. be prepaid, the letter is not forwarded, but notice of its detention is given to the sender, or when that is not practicable, to the person to whom the letter is addressed.

Addresses to the Queen and Petitions to Parliament.

10. Petitions and addresses to Her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or in covers open at the sides. No letter or other enclosure, however, must be inserted; and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

Newspapers and other periodical Publications bearing the Newspaper Stamp.

11. Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

All periodical publications, including newspapers, published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty, (of the kind formerly confined chiefly to newspapers,) may be transmitted and re-trans-

mitted through the post within the United Kingdom free of postage under the following regulations, viz. :—

- 1st. They are subject to the same restrictions with regard to the number of sheets and superficial extent as were formerly applicable only to newspapers properly so called. These restrictions are shewn in the following table :—

Amount of Stamps impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letterpress on One Side.
One Penny, ...	Two, ...	2295 inches.
Three Halfpence, ; . .	Three, ...	3443 „
Two Pence, ...	Four, ...	4591 „

- 2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.
- 3d. The title and date of the publication must be printed at the top of every page.
- 4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside; except that where there are more than two publications in the same cover, it will be considered sufficient if the stamps be so arranged that they can readily be examined.
- 5th. It must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together; nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.
- 6th. It must be posted within fifteen days from the printed date of issue.
- 7th. It must have either no cover or a cover open at the ends.
- 8th. It must not contain any enclosure.
- 9th. It must have no writing or other mark thereon but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it. Thus, if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off, (obliteration not being sufficient,) otherwise the paper will be charged as an unpaid letter.
- 10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it will become liable to a postage of one penny, which must be prepaid by affixing a postage stamp.
- 11th. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable. If the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it is liable to a further charge of 2d.
- 12th. In case of any other irregularity, the publication is dealt with as an unpaid letter.
- 13th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.
- 14th. Stamped publications can also be forwarded under the regulations of the Book Post; but when so sent the impressed stamp does not count as any part of the postage.

Newspapers sent abroad are liable to the 3d, 5th, 6th, 7th, 8th, and 9th of the foregoing regulations; and, before going abroad, the name of the newspaper must have been registered at the General Post-Office, London. Instead of requiring to have an impressed stamp, (by which is meant the stamp specially used for newspapers,) each newspaper, whether sent to a British colony or to a foreign country, is liable to the postage specified in the table of Colonial and Foreign Postage in the "British Postal Guide;" and this postage must be prepaid in stamps. Newspapers posted unpaid are retained at the Returned Letter Office for one week; and then, if the postage still remain unpaid, are destroyed. In all cases of newspapers going abroad, the impressed stamp stands for nothing. Publications registered for transmission abroad, although not strictly newspapers, are in all respects treated as such, so far as their transmission by the British office is concerned.

Parliamentary Proceedings.

12. Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage :—

Weighing not more than 4 oz.		1d.
„ more than 4 oz. but not exceeding 8 oz.		2d.
„ more than 8 oz. „ „ 12 oz.		3d.
„ more than 12 oz. „ „ 16 oz.		4d.

and so on; one penny being charged for every additional quarter of a pound or fraction of a quarter of a pound.

The words "Parliamentary Proceedings" must be written or printed on the cover of the packet, otherwise it will be liable to the letter-rate of postage.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent, under the Book Post privilege, to all the Colonies, and to those Foreign States between which and this country there is a book post.

Book Post,

Including Newspapers and other periodical Publications, and also Parliamentary Proceedings, for which the foregoing special privileges are not claimed.

13. The following are the regulations of the Inland Book Post:—

1st. Rates of Postage:—

Weighing not more than 4 oz.	1d.
" more than 4 oz. but not exceeding 8 oz.	2d.
" more than 8 oz. " " 1 lb.	4d.
" more than 1 lb. " " 1½ lbs.	6d.
" more than 1½ lbs. " " 2 lbs.	8d.

and so on, 2d. being charged for every additional half pound or fraction of a half pound.

2d. The postage must be prepaid by means of postage stamps affixed outside the packet or its cover; and if the whole postage be not thus prepaid, the packet is treated in the manner described in Section 9, following.

3d. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the end with strings; but in such case the Postmaster is authorised to cut the string, although he is required to re-fasten the packet.

4th. A book-packet may contain any number of separate books or other publications, (including printed or lithographed letters), photographs, (when not on glass or in cases containing glass,) prints, or maps, and any quantity of paper, parchment, or vellum. And the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in books; and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but no patterns, or books of patterns (unless these consist merely of *paper*), can be allowed.

5th. No book-packet may contain anything which is sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted but recommended: so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

6th. No book packet must exceed two feet in length, width, or depth; and if any such packet be presented at a Post-office it will not be received.

7th. Any packet which shall not be open at the ends or sides, or shall have any letter or any communication of the nature of a letter written in it, or upon its cover, will be charged with the "unpaid" letter postage.

8th. If a packet be found to contain any written letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorised enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with the full postage, as an unpaid letter, together with an additional rate; and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of one rate, it is forwarded, charged with the deficient book-postage, together with an additional rate; but any packet which bears no postage stamp is charged with the "unpaid" letter postage.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet for circulation in the United Kingdom which is not open at the ends or sides, or which exceeds two feet in length

width, or depth, or which has any written letter or any communication of the nature of a letter written in it, or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up to the Returned Letter Branch of the Circulation Office in London, Dublin, or Edinburgh, as the case may be.

In case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself, in accordance with the above rules.

To prevent obstacles to the regular transmission of letters, a Head Postmaster may, when necessary, delay forwarding any book-packet, not a newspaper, for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices the delay may, at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

The main business of the Post-Office being the transmission of *letters*, the forwarding of books and newspapers, (which no one is compelled to send through the Post-office,) though an important is only a secondary object, for which no arrangement can be made which would interfere with the quick and regular conveyance and delivery of letters. Books, therefore, which would be injured by being thrust into a bag and hurriedly pressed down like a bundle of letters should not be sent through the Post.

At the following rates, and on the same conditions as the foregoing, (except that no packet weighing more than three pounds can be sent to the East Indies or to New South Wales, and that no book-packet can be sent direct to any other part of the Cape Colony than Cape Town, Port Elizabeth, and Mossel Bay,) book-packets may be forwarded to every British Colony, as well as to the undermentioned foreign countries:—

1st. To India, Ceylon, New South Wales, Victoria, Tasmania (Van Diemen's Land,) South Australia, Western Australia, New Zealand, Mauritius, Hong Kong, and Labuan:—

For a packet weighing—	Via	
	Southampton.	Marseilles.
not more than 4 oz.	4d.	6d.
more than 4 oz., but not exceeding 8 oz.	8d.	1s.
" 8 oz., " " 1 lb.	1s. 4d.	2s.
" 1 lb., " " 1½ lbs.	2s.	3s.
" 1½ lbs., " " 2 lbs.	2s. 8d.	4s.

and so on; two rates being charged for every additional half-pound or fraction of a half-pound.

2d. To every other British Colony, to Buenos Ayres and the other portions of the Argentine Confederation, to Monte Video and the rest of the Republic of Uruguay, to the Danish West Indies, (St Thomas, St Croix, and St John,) to Hayti, St Juan de Nicaragua, the Mosquito Territory, to Liberia and other parts of the West Coast of Africa, and by private ship to Hamburg, Bremen, and Lubeck, to Sweden *via* Hull, and *via* Southampton to Alexandria, Cairo, and Suez:—

For a packet weighing not more than 4 oz.	3d.
" more than 4 oz. but not exceeding 8 oz.	6d.
" " 8 oz. " " 1 lb.	1s. 0d.
" " 1 lb. " " 1½ lbs.	1s. 6d.
" " 1½ lbs. " " 2 lbs.	2s. 0d.

and so on; 6d. being charged for every additional half-pound or fraction of a half-pound.

Postage Stamps.

14. Every Postmaster is required to have on hand a sufficient stock of postage labels and embossed penny envelopes; and rural messengers are authorised to sell the same at the price at which Postmasters are empowered to sell them; and when any person applies to them for postage labels, the messengers must either supply them, or (if they have none in their possession) must, without extra charge, receive the postage in money, and, on their arrival at the Post-Office, obtain labels for it and affix them carefully to the letters.

Prepayment of inland letters, &c., must be by labels or embossed stamps. Letters to the colonies and foreign countries may be prepaid in money. Except in the case of letters posted in Malta, Gibraltar, Constantinople, Alexandria, Cairo, Suez, Buenos Ayres, Lagos, and Fernando Po, and those sent by officers and seamen serving on board her Majesty's ships, British postage stamps are not available for the payment of letters, &c., *coming into this country*.

By using embossed envelopes all risk of the stamp being detached may be avoided; but when labels are used, these should be examined to see that they firmly adhere, since, if they fall off, the letters, &c., will be charged with postage; which, in the case of inland letters, is double the prepaid rate. To some places abroad also, double the prepaid rate is chargeable in such cases; and in other instances the letters, &c., are liable to be detained for the deficient postage. The labels should be placed on the front of the letter, and upon the right-hand corner of the upper side.

Registration.

15. The Post-office does not undertake the transmission of letters containing valuable encls-

asures, unless such letters are *Registered*, for which purpose they must be handed to the Postmaster, and NOT DROPPED INTO THE LETTER-BOX; the object in view being to insure greater safety in the transmission by post of letters of value.

By the prepayment of a fee of sixpence, (to be shortly reduced to fourpence,) any letter, newspaper, book, or other packet on which the postage has been prepaid in stamps, may be registered to any place within the United Kingdom. Book packets and newspapers can also be registered to the colonies. To foreign countries *letters only* can be registered. The registration of a packet makes its transmission more secure, by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when colonial or foreign, if not to its delivery, at least to the port of despatch. The Post-Office does not guarantee the safe delivery of the letter, &c., though any officer who may neglect his duty on this point will be called to strict account, and if the Postmaster-General think fit, will be required to make good any loss that may be sustained.

The postage and registration fee of registered letters must be prepaid; and if the letter be inland, such prepayment must be by stamps.

No letter-carrier or rural messenger is required to take letters for the public to have them registered.

The latest time for posting registered letters in the country is entered in the Notice exhibited in every Post-Office; such time, unless otherwise directed by the Surveyor, being fifteen minutes before the closing of the box for the mail by which the letters are to be despatched.

Parliamentary Notices.

16. Parliamentary Notices may be forwarded through the post under the following regulations:—

- 1st. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such Parliamentary Notice should also be legibly printed or written on the face of the letter; though this is not imperative.
- 2d. These notices, so far as Scotland is concerned, must be posted either at the General Post-office in Edinburgh; or at the chief office at Glasgow, Aberdeen, and Inverness.
- 3d. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted not later than the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices which, by the same orders, may be served after the 15th, may be posted after the 12th of that month.
- 4th. The postage chargeable on these notices and the registration fee of sixpence on each must be prepaid by stamps.
- 5th. The notices must be posted at the Post-office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists will be examined by the officer in attendance at the window; and if they correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post-office, London.

The hours for receiving such notices are the same as those for the registry of ordinary letters, unless they be presented at such a time as to interfere with the other duties of the office, in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same; provided that, when the notices are to be served on or before the 15th December, such arrangement do not delay the posting beyond the 12th. Re-directed Parliamentary Notices are liable to an additional rate of postage like letters.

The senders of Parliamentary Notices should, if possible, arrange on the previous day with the Postmaster as to the most convenient time for posting them, and state the probable number.

Notices relating to votes for members of Parliament, belonging to any of the classes enumerated in the Act 6 Vict. c. 18, can also be sent through the post, on or before the 25th and 29th of August respectively, with the securities for their safe delivery enjoined by the Act, on prepayment of the postage and of a registration fee of twopence, (either in money or stamps,) provided they be presented, duly directed, open and in duplicate, to the Postmaster of an office which is also a Money Order Office. On receiving the notices, the Postmaster will compare each with its duplicate, and if the two agree, the latter will be stamped and returned to the bearer; and the production by the person who posted such notice of such stamped duplicate, is evidence of the notice having been given to the person at the place mentioned, on the day on which such notice would in the ordinary course of post have been delivered there. The notices must be presented at least half-an-hour before the fixed times for posting ordinary letters, and are liable to the usual charge for re-direction.

Delivery.

17. Letter-carriers and rural messengers are prohibited from distributing any letters, newspapers, &c., whether before beginning their rounds, whilst on their rounds, or after they may have completed them, except such as have passed through a Post-office. Nor are they allowed to receive any payment beyond the postage for the delivery or collection of any letter or newspaper, nor to

deviate from the route laid down for them. The prohibition, however, from receiving payment in addition to the postage does not extend to Christmas gratuities.

No person living within the town free delivery, unless he rent a private box, can obtain his letters at the office window, if a delivery by letter-carriers is about to commence; but when a mail arrives, after which there is no immediate delivery by letter-carriers, any person, so long as the office is open, may obtain his letters, arriving by such mail, on applying at the window. Where there are frequent deliveries by letter-carriers, however, there are exceptions to this rule.

In order to prevent the additional trouble which is sometimes caused by letters being directed to a Post-office, although for persons residing within a free delivery from such office, but who have no private box, a Postmaster is authorised, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window (even though initials may be substituted for the name), and to send them out by the letter-carriers, except such as are addressed to the military in barracks.

Any person can have a private box who is willing to pay the appointed fee. Where this fee goes to the Revenue, it is generally fixed at one guinea per annum to be paid in advance, and for a period of not less than a year; and where it goes to the Postmaster, he may demand the same terms, though he may, at his option, take less. The same also, in most cases, are the terms for a private bag, except that, in addition, there is the cost of the bag itself, and a charge for conveyance, the maximum of the latter being half a guinea per annum, if the bag be conveyed by a rural post messenger, and two guineas if by a contractor for a mail cart or other horse post. The weight of a private bag, when empty, is limited to one pound. As the service of a private bag may possibly delay the despatch of the general bag, none are allowed without the permission of the Surveyor.

IV.—MONEY ORDERS.

18. The public are recommended, when applying for Money Orders, to use printed "Application Forms," which save time, and afford greater security than verbal messages against mistakes. These Forms are supplied gratuitously at all Money Order Offices.

The commission on inland Money Orders is as follows:—

On sums not exceeding £2,	-	3d.
Above £2 and „ „ £5,	-	6d.
„ £5 „ „ £7,	-	9d.
„ £7 „ „ £10,	-	1s.

The commission on Money Orders payable in any of the Colonies with which Money Order business is transacted is fourfold these sums, and on Money Orders payable at Malta or Gibraltar threefold.

No order is allowed to contain a fractional part of a penny.

With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname, and at least the initial of one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid,) together with the remitter's address:—

- 1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice, except a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," to which kind of company the above privilege does not extend.
- 2d. Money Orders for transmission by the public to the Privy Council Office will be issued payable to "The Privy Council Office," the name of the payee not being required in these cases.
- 3d. When the remitter notifies that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee; and he may, if he wish it, substitute for the name of the payee any other designation or any modification of the name, as for example:—"The Cashier of the Bank of England,"—"The Chief Clerk of the Foreign Office,"—"The Publisher of *The Times*."

When application is made for a Money Order payable in London, or at any other town where there is more than one Money Order Office, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be cashed at the Head Office alone.

An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the issuing or paying Postmaster, according to the directions printed on the back of the order.

The remitter of an order may make that order payable ten days after date, provided he sign the requisition "C," printed on the order, to defer payment until ten days after date, and affix a penny receipt stamp thereto.

When an order is presented for payment (otherwise than through a bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant is neither the rightful claimant, nor deputed by him. When an

order is paid through a bank, it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person,) and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

The holder of a Money Order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an ordinary Money Order is dispensed with.

Money Orders do not require a receipt stamp.

Payment of an order, issued and payable in the United Kingdom, must be obtained before the end of the second calendar month after that in which it was issued, (for instance, if issued in January it must be paid before the end of March,) otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. The period for payment of orders issued in the United Kingdom, and payable in any colony authorised to transact Money Order business, or at Malta or Gibraltar, is six months, and orders granted at those places on the United Kingdom are also payable during six months. Any person presenting a lapsed order will be furnished with a copy of a printed notice, headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued, (for instance, if issued in January, and not paid before the end of next January,) all claim to the money will be lost.

No application can be entertained for compensation for alleged injury from the non-payment of a Money Order at the expected time; and after once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim.

To guard against the loss of a Money Order the public are cautioned:—

- 1st. Never to send the Money Order in the same letter with the information required on payment thereof.
- 2d. To see that the name of the person taking out the order is correctly known to the person in whose favour it is drawn.

Under no circumstances can payment of an order be demanded on the day of issue.

In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars, and enclosing the amount of a second commission, in postage stamps) to the Comptroller of the Money Order Office of England, Scotland, or Ireland, as the case may be, where the original order was *issued*; and if it be desired to stop payment of an order, a similar application, with enclosure of postage stamps, must be made to the Comptroller of the Money Order Office of that part of the kingdom in which the order is *payable*. If alteration in the name of the payee or remitter of a Money Order should be required, application must be made by the remitter to the Postmaster of the office at which the order was issued, and a second commission must be paid. Should transfer of payment of an order from one office to another in the United Kingdom, or repayment of the amount of an order, be required, an application enclosing the order must be made to the Postmaster at whose office the order is payable, who will transmit in exchange a new order payable at the place desired, but for a less sum than the original order by the amount of the second commission charged for the re-issue. Proper printed forms for making applications in all these cases may be obtained at any Money Order Office, and full instructions on the subject will be found printed at the back of the Money Order. Whenever, on complaint being made, it is found that the necessity for an application, entailing the payment of a fresh commission, is attributable to the Post-Office, the charge will be remitted to the applicant and imposed on the officer in fault.

A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the prescribed form of application. If payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the applicant for payment should communicate with the remitter, and request him to apply personally to the issuing Postmaster.

No letter-carrier, or other servant of the Post-office, is bound to procure a Money Order for any person, or to obtain payment for one; but such services are not forbidden.

No Money Order business is transacted on the Sunday; nor, in Scotland, on the Sacramental Fast Days; but for the convenience of the labouring classes, the provincial offices are kept open on the Saturday night till 8 o'clock (or as near that hour as the despatch of the mail will allow,) except where the Surveyor of the district considers such an arrangement unnecessary.

Money Orders are issued and paid at the Chief Office in Edinburgh between the hours of 10 A.M. and 4 P.M., except on Saturdays, when the hours of business are from 10 A.M. till 1 P.M. Orders are issued and paid at most provincial offices between 9 A.M. and 6 P.M. In every case the exact hours appear in the public notice exhibited at the office. A Postmaster, however, is in some cases allowed to suspend the business during the time he is making up his letter bags, &c., provided a notice of the intervals be placarded at his office.

The Deputy Postmasters General of Malta and Gibraltar are authorised to issue Money Orders on the several Money Order Offices in the United Kingdom and Canada, but to pay Money Orders granted on them at the Money Order Offices in the United Kingdom only.

Money Orders are issued at all Money Order Offices in the United Kingdom of Great Britain and Ireland, and at Malta and Gibraltar, on Money Order Offices in Canada, Victoria, Western

Australia, and the Cape of Good Hope, and by the Offices in these colonies, on any Money Order Office in the United Kingdom, at a charge of 1s. for any sum not exceeding £2; and 2s. for any sum above £2 and not exceeding £5; 3s. for any sum above £5 and not exceeding £7; 4s. for any sum above £7 and not exceeding £10, beyond which amount no single order can be granted.

The issue of Money Orders under the above arrangement is in all other respects on the same conditions as regulate their issue by one office on another in the United Kingdom, except that in consequence of the distance between the United Kingdom and the colonies, an interval of six instead of two months is allowed after the issue of an order in one country payable in the other, before such order becomes lapsed.

The renewal of a lapsed order, the issue of a duplicate order, or the stoppage of payment of an order, will be made on the application of the proper party to the Comptroller of the Metropolitan Office of the country in which such order is payable, provided an additional inland rate of commission be enclosed with the application; except in the case of lapsed orders, when the additional commission will be deducted from the amount of the new order issued by the Department; but the lapsed order must be transmitted with the application for its renewal. Postmasters in the United Kingdom have power to transfer to other offices in the United Kingdom payment of colonial orders originally drawn on their own offices.

For repayment of the amount of a Money Order, or for the correction of any error respecting the name of the payee or remitter of an order, the application on the subject, enclosing an additional inland rate of commission, must be addressed to the Comptroller of the Metropolitan Office of the country in which the order was issued.

A list of colonial offices authorised to issue and pay Money Orders can be seen at any Post-office transacting Money Order business, and will be found in the "British Postal Guide."

V.—POST-OFFICE SAVINGS BANKS.

19. These Banks are established under the provisions of the Act 24 Victoria, cap. 14, intituled, "*An Act to grant additional facilities for depositing small Savings at Interest, with the security of the Government for the due Repayment thereof*," and are open daily during the hours appointed for Money-order business for the receipt of deposits of One Shilling, or any number of shillings, subject, of course, to the limitations of amount prescribed in the Acts previously in force for Savings Banks. Whatever facilities or advantages were given by the previously-established Savings Banks to individual depositors, whether male or female, and to Friendly Societies, Charitable Societies, and Penny Banks, are given by the Post-office Savings Banks, which, however, besides being open daily for many hours, have these additional advantages—that a depositor may make his deposits in each or any of them, and may withdraw his money from any one of them, no matter where he may originally have deposited it. Thus, if he began to deposit at Glasgow, he may make his subsequent deposits in Dumfries, Stirling, Aberdeen, or any other place having a Post-Office Savings Bank, to which his occupation may carry him, and he may withdraw all, or part of his deposits, at any place having a Post-office Savings Bank, where it may be convenient to him to receive it.

Depositors in the previously-established Savings Banks may, if they please, transfer the whole of their deposits, irrespective of amount, from those banks to the Post-office Savings Banks. The Act, before quoted, has provided that these transfers may be effected without the necessity for any cash payment; and depositors, wishing to make such transfers, should apply to the Trustees or Managers of the Savings Bank in which their money is placed for a certificate under the 10th clause of the Act 24 Vic. cap. 14, of the amount due to them. This certificate, which is not to be accompanied by cash, may be presented to the Postmaster, at any Post-office Savings Bank, who will receive it as if it were money, and credit the depositors accordingly.

VI.—MISCELLANEOUS REGULATIONS.

20. With the following exceptions, no letter, &c., can be forwarded by the post which is more than two feet in length, breadth, or depth; nor any unpaid packet which weighs more than four ounces, unless three quarters of the postage have been paid. The exceptions are:—

1st. Packets to or from places abroad.

2d. Packets to or from any of the Government Offices or departments, or Public Officers.

3d. Petitions or addresses to the Queen, whether directed to her Majesty, or forwarded to any member of either House of Parliament.

4th. Petitions to either House of Parliament, forwarded to any member of either House.

5th. Printed Parliamentary Proceedings.

No information can be given respecting letters which pass through a Post-office except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

Postmasters are not allowed to return any letter to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such

effect be written thereon; as every letter must be delivered to the person to whom it is directed, and to him alone, at the address it bears.

Late letters, &c., are received till within five minutes of the despatch of the mails, except where the Surveyor may deem a longer interval necessary, and excepting that no office is to be kept open merely for this purpose after ten o'clock at night.

No late letters, &c., (except Government letters) are forwarded by the mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late letter fee; but in the case of Government letters it is sufficient to prepay the fee.

With the subjoined exceptions, every re-directed letter or other postal packet will be liable to an additional postage (at the prepaid rate) unless the re-direction be not only made by an officer of the Post-office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or unpaid letter re-directed either by an officer of the Post-office or by any one else to a different postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal district in the United Kingdom, and weighing not more than four ounces, an additional postage of one penny is levied, or, if the book weigh more than four ounces but not more than eight ounces, an additional postage of twopence; and so on. Government letters from London, Edinburgh, or Dublin are not chargeable for re-direction.

Newspapers and books, &c., received from abroad and reposted to any other place abroad with which there is no Book Post, are chargeable with Letter postage.

A registered letter, when re-directed, is liable to the same additional charge as an ordinary letter, and if reposted a second fee must be paid with it.

Letters which have once been posted addressed to commissioned officers in the army, navy, or ordnance, or to non-commissioned officers, private soldiers, or seamen employed on actual service in any of her Majesty's colonies, or on any foreign station, and who, before receiving the letters, may have started on their return home or to another station, may be re-directed to such officers, private soldiers, or seamen when these have removed *upon service*, and will be delivered to them without any charge for re-direction. The same privilege extends to the letters of non-commissioned officers, private soldiers, and seamen, re-directed from one part of the United Kingdom to another part of the United Kingdom, or from the United Kingdom to a place abroad; but no such privilege is allowed with regard to letters for a commissioned officer re-directed from one part of the United Kingdom to another, or if posted in the United Kingdom re-directed to a place abroad.

Postmasters are not bound to re-direct letters for inhabitants of the same postal district unless their places of abode should be left uninhabited or they have a private bag or a private box; and unless, in addition, a written application, properly signed, be received by the Postmaster from the person to whom the letters are addressed, requesting that they may be re-directed.

Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of letters, &c.

During the time the office is open on Sunday (viz., from 9 to 10 in the morning, and one other hour) the public are allowed to prepay foreign and colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which on that day are wholly suspended.

At no provincial town in Scotland is there more than one delivery on the Sunday, nor on the Sacramental Fast Days; and any person is at liberty to prevent even this, so far as relates to himself, as shewn by the following regulations:—

- 1st. Any person can have his letters, &c., retained in the Post-Office on Sunday by addressing to the Postmaster a written request, duly signed, to that effect.
- 2d. Such request will be held to include newspapers, and all other postal packets, even such as may be marked "immediate," as no distinction can be allowed.
- 3d. No letters, &c., the non-delivery of which by the letter-carrier on Sunday has been directed, can be obtained from the Post-office window on that day.
- 4th. Private box-holders have the option of applying for letters at the office while it is open for delivery on Sunday, or of abstaining from so doing, as they may think proper; but no person can be permitted to engage a private box for Sunday only.
- 5th. To prevent the inconvenience and confusion which would arise from frequent changes in these instructions, no request can be entertained unless it extend to a period of at least three months, nor be withdrawn, even after the lapse of that time, without a week's notice.

No Postmaster is bound to give change, or is authorised to demand change; and when money is paid at a Post-office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag or the person of any officer of the Post-Office. If such a letter, &c., be posted without the Postmaster's knowledge, or if at any time

before its despatch he should discover any letter, &c. of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to :—

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables; bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or combustible.

When any letters, &c., remain undelivered, owing to the residences of the persons to whom they are addressed not being known, a list of the addresses is affixed in the window of the Post-Office to which they may have been sent, during the time (one week) they are allowed to remain there.

When the reason for the non-delivery of a letter, &c., in the country is "Deceased," the letter is sent, as soon as practicable, to the Returned Letter Office, as are all letters intended for ships which have sailed before their arrival. When the reason is "Refused," the letter, if an inland one, is retained by the provincial Postmaster for one day only before being sent to the Returned Letter Branch, General Post-office, Edinburgh, unless the refusal be conditional, in which case the letter is kept for one week, as are all colonial or foreign letters when refused, and letters, whether inland or foreign, marked "Not known," or "Gone away." When the reason is "Not called for," (the letter being addressed to a Post-office,) the packet is retained by the Postmaster one month; except in the case of letters at seaports addressed to persons on board ships expected to arrive at such ports, which letters are kept three months.

Every letter, &c., which is opened at the Returned Letter Office and found to contain the address of the sender, is sent back to him; but such as do not contain the sender's address are destroyed, except those which contain money or other articles of value.

By the Act 1st Victoria cap. 33, sec. 2, any person conveying otherwise than by the Post a letter not exempted from the exclusive privilege of the Postmaster-General, incurs a penalty of £5 for every letter, and £100 for every week the practice is continued. The sender also incurs a penalty of £5 for every letter, with full costs of suit.

The following are the exceptions granted by the Act 1st Victoria, cap. 33, from the exclusive privilege of the Post-office in the conveyance of letters :—

- 1st. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed : .
- 2d. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings or returns thereof, issuing out of a Court of Justice :
- 3d. Letters sent out of the United Kingdom by a private vessel (not being a packet boat) :
- 4th. Letters of merchants, owners of vessels of merchandise, or the cargo or loading therein, sent by such vessels of merchandise, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in any wise :
- 5th. Letters concerning goods or merchandise sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters :
- 6th. No person is authorised to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

The following persons are expressly forbidden to carry a letter, or to receive, or collect, or deliver a letter, even though they shall not receive hire or reward for the same :—

- 1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their pack horses; and owners, drivers, or guards of stage coaches :
- 2d. Owners, masters, or commanders of ships, vessels, steamboats, or boats called or being passage or packet boats, sailing or passing coastwise, or otherwise between places within Great Britain or Ireland, or between, to, or from ports within her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board :
- 3d. Passengers or other persons on board any such ships, vessels, steamboat, passage or packet boat :
- 4th. The owners of or sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other her Majesty's dominions.

The Rates of Postage on Foreign and Colonial Letters are subject to frequent changes, and for information as to them reference is recommended to be made to the "British Postal Guide," which is published quarterly, by command of the Postmaster-General, and may be had at any Post-office, price One Shilling.

Besides the "British Postal Guide," daily and weekly editions of a Postal Official Circular are issued, containing information respecting the sailing of packet-boats conveying mails, and notices of all alterations in the despatch or arrival of mails, in the rates of postage, whether Inland, Colonial, or Foreign, and in any other postal matter of public import.

THE STANDARD LIFE ASSURANCE COMPANY was established in 1825, and the Acts of Parliament, 2° & 3° Gul. IV. cap. 81, and 8° & 9° Vict. cap. 75, also 22° & 23° Vict. cap. 27, have been granted for the purpose of its constitution, and for the regulation of its affairs.

PROGRESS OF THE COMPANY'S BUSINESS.

The business of the Company has increased steadily year by year, until it has attained its present large amount; and the STANDARD has transacted a larger amount of Business during the last fifteen years than any other office.

*Standard Life Assurance Company—continued.***INVESTMENT OF FUNDS.**

The Funds of the Company, which amount to nearly Two Millions Sterling, are invested in Government Securities; in Loans on the security of Land, by bond or mortgage; in Landed Property; in advances to the Company's Policy-holders; and in other ways affording undoubted security.

THE PROFITS OF THE COMPANY

Have been divided on six occasions—in 1835, 1840, 1845, 1850, 1855, 1860—when large additions were made to Policies under the peculiar mode of division adopted by the Company, which is essentially Tontine, affording very important advantages to Assurers.

EXAMPLES OF BONUS ADDITIONS.

Date of Policy.	Sums in Policies.	Bonus Additions to 1860.	Sums in Policies with Bonus Additions.
Nov. 15, 1830, ...	£1000	£1115 0	£2115 0
" 1835, ...	1000	790 0	1790 0
" 1840, ...	1000	515 0	1515 0
" 1845, ...	1000	302 10	1302 10

" 1855, ...	1000	57 0	1057 0

The Policies of the STANDARD LIFE ASSURANCE COMPANY are more Valuable than ORDINARY POLICIES,

Inasmuch as they are free from extra Premiums in the case of foreign residence, when the Directors are satisfied there is no intention or prospect on the part of the Assured to reside abroad. They are also free from other restrictive clauses. These are great benefits. Take, as an example, a liferenter who assures his life. In ordinary Policies, he is limited to residence in Europe, and his Policy is subject to forfeiture on various grounds. A *STANDARD Free Policy*, once obtained, contains but one condition—payment of the Premium, and for that, too, increased facilities are given; while at the end of five years, the Assurance Deed becomes, as regards any question, a simple promise to pay on proof of death. If the Policy is to be made the basis of a marriage-contract, or to be a security in any way, the advantage of a Free Assurance is undeniable; and in the present day, every Policy, it may be said, becomes in the course of its existence, in some way or other, the groundwork of a responsible transaction.

BONUS ASSURANCE AT THE SMALLEST OUTLAY.

BY an entirely new adaptation of the Bonus System, the Directors are enabled to offer unusual advantages to all who wish to reduce, as much as possible, THE COST of Life Assurance. The Plan is fully explained in a Pamphlet issued by the Company, to which reference is made for detailed information respecting it.

SEVEN YEARS' HALF-CREDIT ASSURANCE.

Under this system, Assurances can be effected at an outlay, during the first seven years, of little more than one-half of the ordinary Premium, and at a moderate rate thereafter, while the full Sum Assured will be paid at death. Full particulars and illustrations of the Plan will be found in a separate Pamphlet issued by the Company.

EXEMPTIONS AS REGARDS FOREIGN TRAVEL AND RESIDENCE.

Unrestricted liberty is granted from the outset to all Assured under Whole Life Policies, except Seafaring Persons, to pass by sea from one part of the world to another, without payment of Extra Premium.

Unrestricted liberty is granted from the outset to reside in many foreign countries, without payment of Extra Premium.

At the end of five years from the date of a Policy, liberty is granted to reside in any quarter of the world, without payment of Extra Premium, on the Assured shewing, at taking out the Policy, that they have no prospect then of going abroad, and provided they do not proceed thereto at any time within the above period of five years from the date of Policy.

SPECIAL PRIVILEGES GRANTED BY THIS COMPANY.

At the end of five years from their date, the Company's Policies (provided satisfactory evidence of age has been produced) are indisputable on any ground whatever.

When a Policy falls by non-payment of the Premium, from oversight or other cause, no advantage is taken thereof to deprive the holder of the Policy of its full surrender value; and special notice is given that the same will be paid, on application, within three months.

DIVISION OF PROFITS.

The Profits are divided ANNUALLY. Each Policy-holder participates therein THE VERY FIRST YEAR HE ENTERS. Each Policy-holder receives an EQUAL SHARE of the profits, in proportion to the Sum Assured. The Profits may either be allocated as an addition to the Amount Assured, or the value paid AT ONCE IN CASH.

Copies of the Company's Pamphlets, Forms of Proposal, &c., may be had at the Offices, or from any of the Local Agents.

LIFE ASSOCIATION OF SCOTLAND.

FOUNDED 1838.

Empowered by Royal Charter and Act of Parliament.

THE ASSOCIATION HAS NOW IN OPERATION TWO SEPARATE SCHEMES OF ASSURANCE.

ORIGINAL SCHEME—(CLASS A.)

ORDINARY ASSURANCE.

The Original Scheme of the Association has been in operation since 1838, and is arranged expressly with the view of reducing the expense of Life Assurance as low as is consistent with security.

1. AN ALLOCATION OF PROFIT is made yearly to all Policy-holders who were of Five years' standing at the date of the preceding balance, and so as to reduce the outlay for the Policies. Policy-holders of the First Series have thus for many years been called on to pay only 12s. 6d. (instead of 20s.) per £1 of their premiums; the remainder having been paid from the profits. For example, a Policy-holder, whose premium is £50, obtains a return from the profits of £18, 15s.; and another, whose premium is £20, obtains £7, 10s. The Second Series commenced to participate in profits at the Division in 1861, when a reduction of 25 per cent. (5s. per £1) from their next year's premium was declared.
2. THE OUTLAY FOR A POLICY may be materially lessened also, until the time of participating in profits, by the HALF-CREDIT SYSTEM, under which only half the premiums for the first six years need be paid, the other half remaining unpaid (at interest) as long as the Assured pleases.
3. FREEDOM FROM RESTRICTIONS. The Policies now being issued are free from some important restrictions imposed by other Offices, and confer unusual privileges. They are thus peculiarly valuable as securities for money, Family Provisions, and for every other purpose.—*See Prospectus for full Explanation.*

This Scheme closes on 5th April annually.

NEW SCHEME—(CLASS B.)

UNCONDITIONAL ASSURANCE.

While the Policies of the original Scheme have been relieved of many of the usual imperfections of Assurance Policies, the Association has, by this New Scheme, met the desire of late manifested for a system *still more simple and unconditional.*

1. NO FORFEITURE (as is usually the case) by omission to pay a premium through accident or oversight; and, after Five years, payment of a premium may be intentionally postponed for a year.
2. NO RESTRICTIONS as to Occupation, Residence, or Travelling; and no Extra Premiums can ever be payable.
3. THE LIABILITY of the Association for the Sum Assured continues even if death happen by *Suicide, Duelling, &c.*
4. THE VALIDITY OF THE POLICY cannot be questioned in so far as an Assignee is concerned; and, under any circumstances, the Assurance becomes unquestionable and indefeasible by the lapse of Five years.
5. THE WITHDRAWAL of a fixed and unusually large proportion of his payments, either as a loan on security of the Policy, or for its surrender, after the first year, is in the power of the Policy-holder.
6. ALLOCATIONS OF PROFITS in the form of *Bonus additions* to the sum assured, with the option of equivalent cash payments.

The Policies of this New Scheme have, therefore, an EXTRAORDINARY VALUE and IMPORTANCE, and afford complete protection under almost all circumstances. It is, however, not intended for persons residing in, or likely to proceed to, unhealthy climates.—*See Prospectus for full explanations of the Scheme.*

This Scheme closes on 5th December annually.

THE DIRECTORS OF THIS COMPANY have framed their Regulations with a special view to giving their Policies the highest value as securities for family provisions, debts, or other engagements. All needless restrictions are dispensed with; and Policies, after a certain period, having acquired a present money value, may be kept in force for a time without further payments.

Repeated distributions of Profits among the Assured have taken place since the establishment of the Company. Nine-tenths of the Free Profits are appropriated, by way of addition to the Policies, or as a Cash Bonus.

THE CORPORATION OF THE SCOTTISH PROVIDENT INSTITUTION, No. 14 ST ANDREW SQUARE, EDINBURGH.

THE ADVANTAGES which, as compared with other Offices, this Society offers, are—

A greatly larger original Assurance for the same Premium, and eventually to good lives as large additions as where the ordinary high rate of Premium is charged.

For the same yearly sum, as large an Assurance may generally be secured from the first as can be looked for elsewhere after many years' accumulation of Bonuses. Thus, a Policy for £1200 or £1250 may be had for the Premium usually charged to Assure £1000 only.

In addition to this Immediate Advantage,

The **WHOLE PROFITS** are secured to the Policy-holders themselves, and are divided on a system at once safe, equitable, and peculiarly favourable to good lives.

Instead of being frittered away among all Policies indiscriminately—including those which have subsisted only a few years, and on which there may eventually be a *loss* to the common fund—they are reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with accumulated interest, amount to the sums in their Policies.

The practical working of the System has been that Policies originally for £1000, which have shared at the two septennial divisions, have been increased to £1300, £1500, and in some instances to £1780.

The class of participators now embraces, with few exceptions, all who entered in the earlier years, with many more recent entrants paying a higher rate of premium.

Since the Institution of the Society in 1837, 12,000 Policies have been issued for an amount of Five Millions.

POSITION AND ADMINISTRATION.

THE POSITION to which the Society has attained among the Life Offices of Great Britain is thus stated by the Chairman at the Annual Meeting of 1861:—

Looking to all the Offices in the Kingdom, we find that of those established as late as ours not one has come up to us in general business, except it may be one, and in that case, the difference, if any, is not great, while our own Realised Fund considerably exceeds theirs. If we look, on the other hand, to all the Offices older than ours, numbering probably about sixty, we have gone ahead of about one-half of them in the amount of our Accumulated Fund, and of nearly three-fourths of them in the number of our Members.

Mr GEORGE HOPE, Fentonbarns, referring to the discussions among Assurance Offices as to what are styled "Indefeasible Policies," pointed attention to the leading part taken by this Society in freeing Policies from all elements of doubt as to their sufficiency—quoting the Resolutions adopted by the General Meeting in February 1849, by which—among other relaxations—it is declared that "*there shall be no forfeiture unless the averments*" in the original proposal "*be fraudulent as well as untrue.*" The Institution had never disputed a claim.

Annual Premiums for Assurance of £100 at Death, (Entitling the Assured to share in the Whole Profits.)

Age.	Premium.	Age.	Premium.	Age.	Premium.
26	£1 18 6	36	£2 8 2	46	£3 8 5

EXAMPLE.—A person aged 30 may secure £100 at death for a yearly payment *during his life* of £2, 1s. 6d.—the Premium for £1000 being £20, 15s. only.

This Premium, if paid to any of the other Mutual Offices, would secure a Policy
for £800 only, instead of £1000.

... in 1839, age 43, for £5000, is now worth	6553	6	8
... in 1840, age 44, for £2000, is now worth	2613	0	0

The Bonuses may be applied in reduction of the future Premiums. Policies rendered indisputable. The Company give a GUARANTEED RETURN at any time for the surrender of existing whole-term Policies, effected by even rates of 40 per cent. on the ordinary Premiums received. Detailed Prospectuses and Forms of Proposal may be had gratis by applying to

THE Policies, now in course of being issued by this Company, are free from all unnecessary restrictions, and secure every advantage derivable from the system of Life Assurance. The Premiums are strictly moderate.

The Participation Scheme was begun in 1840, and the oldest Policies for £1000 in connexion with it becoming Claims after payment of the Premiums falling due in the current financial year, are increased to £1333, Os. 2d.; those for larger or smaller sums being proportionately augmented. Bonus Additions may be surrendered for their value in cash, or an equivalent reduction of future Premiums, the Assured having their choice in all cases.

It is provided by the Company's Act of Incorporation, that Investigations shall take place at intervals not exceeding Five Years, and intermediate Bonuses are allowed when Participating Policies, in force at one Division of Profits, become Claims before another—an arrangement which secures for such cases advantages similar to those claimed for Annual Investigations.

The business in this department has been greatly extended within the last few years.

SHANKS' PATENT LAWN MOWERS FOR 1862.

WITH SILENT MOTION, IF
SPECIALLY DESIRED.

NEW HAND MACHINE.

ALLEXANDER SHANKS & SON, in introducing their PATENT LAWN MOWERS to the Public for this Season, do so with that confidence in their merits and superiority which the eminently successful result of their long and continued efforts to improve fully entitle them to have. The effect of the Improvements of previous years have been so much appreciated by the Practical Gardener, that a large and steady increase in the number of Machines sold has every year taken place; every one of which, so far as known, has given the greatest satisfaction.

A. S. & Son have pleasure in intimating that the Improvements introduced this Season are of such a nature as to make still more secure the high position which almost all Gardeners know their Machine has ever occupied, as pre-eminently the Best, the most Durable, and the Cheapest of all Lawn Mowers.

SHANKS' PATENT LAWN MOWER mows the grass, wet or dry, on lawns uneven or otherwise, in a manner vastly superior to the Scythe, and at one-third the expense.

The Machines are made from 12 inches wide, for a Boy to work, up to 48 inches, for a Man and horse.

COLTON'S MAPS OF AMERICA.

CORRECTED TO THE PRESENT TIME.

PUBLISHED BY J. H. COLTON, 172 WILLIAM STREET, NEW YORK.

(FOR MORE THAN THIRTY YEARS THE LARGEST PUBLISHER OF MAPS AND ATLASES IN AMERICA.)

Giving the Census of 1860—Area—Exports and Imports; and shewing, by three distinct colours, the exact boundaries of the Free, Border Slave, and Seceded States.

EXTRACTS FROM THE PRESS.

THE present exciting struggle going on in America renders the possession of detailed Maps an absolute necessity to those who desire to understand the strategies of that campaign. We had nothing on this side of the Atlantic before this importation from New York, calculated to give the faintest notion of the position of the contending armies, and we therefore hail Colton's series as an invaluable boon."—*United Service Gazette*.

"The want of such Maps has long been felt in England."—*Daily News*.

"They give distinctly a mass of detail which could not be included in any ordinary Map—well and clearly engraved."—*Illustrated London News*.

"The scale on which these maps are projected has enabled the engraver to introduce many features unknown in other maps."—*Standard*.

"Supplying the precise information in which other maps are deficient."—*Spectator*.

No. 1.—Colton's Steel-plate Map of the United States and Canada; shewing all the counties, principal towns, railways, stations, forts, and military points: A very interesting and valuable Map, scale 48 miles to an inch, size 36 by 42 inches. In sheet, 5s. In case, 9s. Mounted on black roller, 10s.

No. 2.—Colton's United States, Mexico, West Indies, and Central America, shewing also Canada, New Brunswick, and Nova Scotia: locating the forts, &c. extending from the Atlantic to the Pacific. Size, 36 by 42 inches. Price, in sheet, 5s. In case, 9s. Mounted and Varnished on roller, 10s.

No. 3.—Colton's Small Map of the United States. Size, 20 by 30 inches. Price, in sheet, 2s. In case, 4s. On black roller, 5s.

No. 4.—Colton's Map of the Southern States; shewing all the States south of latitude 41, including the 15 Slave States. This Map is on the large scale of 25 miles to an inch, and gives every town, railway, and stream in the Southern States; so that, for tracing the movements of the armies, there is nothing that can supply its place, since the smallest towns are liable to come into note during the progress of the War. It also shews the forts and fortifications, and gives the population, free and slave, of each State for 1860. Size, 40 by 50 inches. Price, in sheet, 6s. In case, 11s. Mounted and Varnished on black roller, 14s.

No 5.—Colton's Plans of the United States Harbours: being Twenty separate Plans of the principal Harbours. On the large scale of about one mile to the inch, by which the positions of the various fortifications are readily seen. This Map also contains a Plan of the Mississippi River, from Cairo to New Orleans. Size, 22 by 33 inches. Price, in sheet, 2s. 6d. In case, 4s. 6d. On black roller, 5s. 6d.

No 6.—Colton's Large Map of the United States and the Canadas. By far the most minute and reliable Map of that country extant, locating every town, railway, and station, and stream in the United States and Canada. For Libraries, Merchants, Shippers &c., this Map is particularly desirable; indeed, there is nothing to supply its place. Nine sheets, 68 by 82 inches: scale, 25 miles to an inch. Price in sheet, £2, 2s. Mounted in case, or on black roller, varnished, £3, 3s.

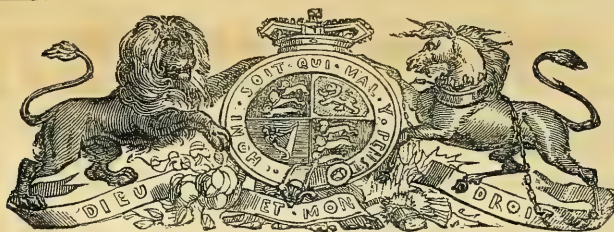

Also, Colton's Atlas of the World, with descriptions; containing One Hundred and Eighty Steel Plate Maps; with One Hundred and Sixty-eight pages of Letterpress Descriptions—Geographical, Historical, and Statistical. Imperial folio. Bound in cloth, morocco back and corners, price £3, 15s. 6d. Bound in Turkey morocco, full gilt, £5, 15s. 6d.

Colton's New Map of Canada, 3 feet by 5. Price, in sheets, £1. In a case, £1, 6s. On black roller, £1, 10s.

Colton's Map of British Columbia and the Gold Regions. The largest and most complete Map of that country yet published.

The above Maps are all compiled from the official surveys, and engraved on Steel in the best style of art; printed on the best paper, and neatly coloured.

Sold by R. GRANT & SON, 54 Princes Street, Edinburgh.

ALEXANDER MACKENZIE & CO. having greatly increased their manufacturing facilities, now produce Sewing Machines in style and assortment hitherto unattempted by any manufacturer in this country; and, in submitting the new Catalogue of Machines and Prices to the Public, recommend them with every confidence, as they cannot fail to give entire satisfaction.

These Machines are suited for every class of work, and are of the highest finish: for nicety of mechanical arrangement, speed of execution, and beauty, accuracy, and strength of stitch, they are unequalled: they sew with silk, twist, linen thread, and common spool cotton, with equal facility; and, all are thoroughly tested, and warranted.

* * The newly invented Double-Acting Feed-Motion Machine, with long cylindrical arm (*Patented 7th Feb., 1862*), will be found the most perfect Machine of its class, the change of action being simple and instantaneously obtained.

£16 16/.

No. 10.

Machine as used for cylindrical work, as Boot
Legs, Trousers, Sleeves, &c.

With Table, and suited for all the purposes
of an ordinary Machine.

£20

PATENTED 7th FEBRUARY, 1862.

The continual demand for a Machine capable of working in either direction at will, without the necessity of detaching and substituting other parts of machinery, which were in many cases laid aside, and always troublesome, led to the invention of this Machine, where the same working parts operate in both actions.

This Machine has a Cylindrical Arm 15 inches long, and 2 inches diameter, with the Feed-Motion capable of operating in two directions, and for Boot-work is fitted to work with two needles, making two rows of stitching at the same time; and so arranged that the smallest Boot may be sewn all round the Golosh and up the back, after the insertion of side springs. Tailors will find it specially adapted for sewing up and putting in sleeves, stitching round Cuffs, Trousers, &c.—in addition to all the purposes of an ordinary Machine.

GLENFIELD PATENT DOUBLE REFINED POWDER STARCH.

Exclusively used in Her Majesty's Laundry, and pronounced by Her Majesty's Laundress to be the Finest Starch she ever used.

The great and ever-increasing demand for this world-renowned Starch, is the best proof of its superiority over every other kind.

THE GLENFIELD PATENT STARCH,

Which is adapted for all classes—from Her Majesty downwards—possesses, in an eminent degree, the following properties:—

**GREAT STRENGTH COMBINED WITH GREAT ELASTICITY.
PURITY OF COLOUR AND PEARLY TRANSPARENCY.**

It does not impart the yellow tinge to Fabrics which other Starches do, but has, on the contrary, the effect of keeping them *Clear in Colour and Strong in Texture.*

The Manufacturers have no hesitation in affirming that the Glenfield Patent Starch is

**THE MOST PERFECT,
AND AT THE SAME TIME
THE MOST ECONOMICAL.**

And if there be any who have not done so, they are earnestly recommended to
GIVE IT ONE FAIR TRIAL,
and, by attending to the undernoted directions in making it, they will find it to be both
EASIER MADE and EASIER USED
than any other, and, like the Queen's Laundress, resolve for the future to

USE NO OTHER.

DIRECTIONS.—To be used the same as other Patent Starch. Bruise it fine, and dissolve in the smallest quantity of luke-warm water, then pour on **BOILING** water, (be sure it is boiling) and stir well till it is brought to the required strength. This Starch should be used when warm.

CAUTION.—As numerous unprincipled Dealers are in the habit of substituting spurious imitations and other worthless articles, merely for the sake of larger profits, Purchasers are earnestly recommended to ask particularly for **GLENFIELD STARCH**, and make sure that they get it, more especially as the same price is charged for the Spurious as for the Genuine article.

Sold in Packages at $\frac{1}{4}$ d., 1d., 2d., 4d., and 8d. each,
BY GROCERS, CHANDLERS, CHEMISTS, OILMEN, &c.,

a great variety of the Finest Essences.

THE PUREST ^{ARE} CONFECTIONS
WHICH CAN BE MADE

THESE LOZENGES are of an Improved Shape, Free from Colour, and being Manufactured from the Finest Sugar by Patent Steam Machinery, all Working of the Sugar by the Hands is avoided.

Sold in neat Packets at 1d., 2d., 4d., 8d., and 1s. 4d. each.

The unprecedented success of these Lozenges, arising from a universal appreciation of their inimitable qualities, having already tempted various unprincipled parties to aim at imitating them, we would impress upon purchasers the necessity of asking specially for

"WOTHERSPOON'S VICTORIA LOZENGES,"

and making sure that our names are on every packet, without which none are genuine.

We have much pleasure in directing attention to the following Analysis and Report, and are respectfully,

ROBERT WOTHERSPOON & CO.,

WOTHERSPOON'S VICTORIA LOZENGES

We have much pleasure in directing the attention of our readers to these Lozenges, which are a new improved form of Confectionery, introduced by Messrs. Robert Wotherspoon & Co., of Glasgow.

Several samples of Messrs. Wotherspoon's Victoria Lozenges, (viz., Cinnamon, Clove, Ginger, Lavender, Lemon, Musk, Peppermint, and Rose,) have been submitted to examination with the following results:—

The whole of these Lozenges consist entirely of pure sugar—the different flavours being due to the introduction of essential oils and essences, with the exception of the Ginger, the flavour of which appears to be produced by means of very finely ground ginger.

These Lozenges are also entirely free from any colouring matter whatever, and are therefore perfectly white, the Ginger Lozenges having a very faint tinge of brownish grey, which is caused by the presence of powdered ginger as the flavouring material.

The shape of the "Victoria Lozenge" is peculiar, being that of a very much flattened sphere, thus presenting a surface which is curved at every part, and which is also perfectly smooth.

It is evident from the above facts, that these Lozenges are to be preferred to the ordinary kinds in the following particulars, viz.:—

That they are composed of pure sugar, instead of being mixed with a quantity of wheat or other starch, as the ordinary descriptions of Lozenge almost invariably are.

That they contain no colouring matter, and are perfectly white, thus ensuring the use of none but the best sugar.

That their peculiar form, having a perfectly smooth surface, and no sharp edges, gives them a far more pleasant feeling in the mouth than those of the ordinary kind.

These Lozenges are said to be made entirely by machinery, thus preventing any working with the hands, and they are sent out by the manufacturers only in packets bearing their name, to be retailed at various prices, and so preventing any contact with the hands in their passage from the manufacturers to the consumer.

The "Victoria Lozenges" are, therefore, to be recommended on account of their purity, shape, and cleanliness, and may be considered as a great improvement upon the old form of Lozenge.

The "Royal" Insurance Company.

IT is indispensably necessary that every Company, which undertakes to replace the Loss occasioned by FIRE, or to provide by a specific sum, or by an annuity, the means of subsistence to the Widow and the Orphan, should be able to show its undoubted ability to perform these engagements. As ample evidence of the standing and position of the "ROYAL" INSURANCE COMPANY, it may be stated that its

SUBSCRIBED CAPITAL IS TWO MILLIONS STERLING.

THE CAPITAL ACTUALLY PAID UP AND ACCUMULATED AMOUNTS TO
UPWARDS OF EIGHT HUNDRED THOUSAND POUNDS.

It cannot be too strongly pressed on the attention of the Assurer that **Security** is the **First Desideratum** in all **Insurance transactions**, and that his object is not attained unless the event or contingency against which he wishes to guard is provided for, from the moment he has paid his **Premium**, under all possible circumstances.

It is therefore manifest that the **Capital** of an Insurance Company should be sufficiently large to meet all possible demands, and that its amount should be distinctly stated, in order that its entire sufficiency to meet all claims may plainly appear.

REPORT BY THE AUDITORS TO THE ANNUAL MEETING IN AUGUST, 1860.

WE investigated the Company's affairs, when every document, every account, and every voucher which we deemed necessary were placed unreservedly in our hands; and every deed of Security, on which property is held, passed either through our hands or under our eyes; and after several days of most laborious, careful, and attentive investigation of the affairs of the Company, we declare that the property representing its **Capital and Accumulated Funds** is, in our opinion and judgment, **SOLID, SUBSTANTIAL AND SECURE.**

FIRE DEPARTMENT.

The rapid progress and position of this branch of the Company's Business will be best shown by the following extracts from the Report for the year:—

In the next Three years £29,206 12s. 9d. was added	29,208	12	9
And in the past Four years the sum added was	79,159	2	3
Making a Total now at the Credit of that Account of	£160,142	10	0

The Royal Insurance Company was "hit" for £80,000 by the fire at Cotton's Wharf; but, before a week was over, the money was ready to be paid.—*Aug. 9, 1861.*

ATLAS.

Of the Reserved Fund the Manager has every reason to be proud, as it enables him to make the fair boast that in three days after the overwhelming catastrophe adverted to (the great fire in London), the "Royal" was in a position to pay, and did pay, its claims on presentation, thus vindicating its well-earned character for promptitude and liberality in loss settlement. The value to the general and commercial community of such honourable and timely promptitude as the Royal Insurance Company displays to us, cannot be too strongly insisted on.—*August 10, 1861.*

BIRMINGHAM DAILY POST.

The results of the operations of the Company during the year 1860 must be highly satisfactory to the shareholders, and challenge the attention of the general public.—*Aug. 5, 1861.*

Bristol Mercury & W. Counties' Advertiser.

The increase in the new duty of the Company last year was more than double that of any other Fire Office in the Kingdom, and equalled one-third the increase of all the London Offices put together.—*Aug. 10, 1861.*

BURY GUARDIAN.

The rapid but regular increase in the business of the Royal Insurance Company, is attributable to the energy of its managers, and to the soundness of the principles upon which it is based.—*Aug. 17, 1861.*

BURY TIMES.

The Royal Insurance Company is very rapidly becoming one of the most wealthy and influential establishments of its kind in the kingdom.—*Aug. 17, 1861.*

DURHAM CHRONICLE.

The "Royal" has displayed from the first a steady, onward development, which could only have been secured by the confidence which the soundness of the principles upon which it is based has established in the public mind. This progress is more marked during what has passed of the present year, than it has been at any previous period in the history of the Company.—*Aug. 23, 1861.*

EDINBURGH EVENING NEWS.

The Royal Insurance Company has in some essential respects distanced all competitors.—*Aug. 10, 1861.*

GLASGOW EXAMINER.

If further proof is needed of the extraordinary resources of this Company, we may state that its London branch was provided with sufficient funds to meet every claim caused by the late terrible fire in London, without calling on the Shareholders, or trenching on its paid-up capital.—*Aug. 16, 1861.*

HALIFAX GUARDIAN.

The report for the year 1860 was of a most gratifying nature, and most satisfactory to the shareholders.—*Aug. 10, 1861.*

HUDDERSFIELD CHRONICLE.

Its affairs are wisely and energetically administered.—*Aug. 24, 1861.*

LEEDS TIMES.

The reserve fund of the "Royal" at the present moment amounts to very nearly £200,000. The consequence is, that the manager was in a position to authorise the London executive, within three days of the late appalling calamity, to pay all proved claims against the office.—*Aug. 10, 1861.*

LEICESTER JOURNAL.

The total increase of Revenue effected during the year 1860 was no less than £50,000, £35,000 of which is due to the new business of the Fire Department, and £15,000 to the new policies issued within the same period in the Life Branch. These facts are worthy of the impartial consideration of the public.—*Aug. 9, 1861.*

LIVERPOOL COURIER.

The funds of this Company have been so judiciously adjusted, and the foresight of the directors has been so sensible, that the shock of the great London fire has been borne by the "Royal" without a quiver. The heavy loss sustained in that disastrous conflagration has been at once met out of the large reserve fund at its command.—*Aug. 3, 1861.*

LIVERPOOL MAIL.

The Directors are fully justified in anticipating the time when the Company will be placed, with respect to the amount of its new business, at the head of all the Life Assurance Institutions in this country. Nor has the progress of the Fire Branch been at all less remarkable.—*Aug. 3, 1861.*

LONDON COMMERCIAL RECORD.

The judicious expansion of the Reserved Fund has been attended with the happiest results. It has ever been our opinion that no Fire Insurance Company can long maintain its ground without having a large positive Capital available any moment for extraordinary contingencies; and this opinion is confirmed by the many failures that have taken place of public companies constituted on the unsound basis of a nominal capital. The Chairman of the "Royal," adverting to this subject, observes:—"I find that within the last 17 years, 48 new Fire Offices have been established, of which only Twelve are now in existence."—*Aug. 9, 1861.*

Manchester Examiner and Times.

In three days after the commencement of the fire, measures were taken to supply the London Branch with ample funds to meet all calls that might be made upon them.—*Aug. 17, 1861.*

NEWCASTLE DAILY CHRONICLE.

The total income from fire policies now amounts to more than a quarter of a million per annum; and the reserve fund to close upon £200,000.—*Aug. 5, 1861.*

NEWCASTLE GUARDIAN.

The Southwark conflagration did not find the "Royal" unprepared. It was "ready, eye ready," for it had expressly provided against such contingencies, and funds were at once sent from its reserve to its London Branch to meet every claim in the most prompt and liberal—we might say in a right royal manner. Insurers understand what this liberality proves—it proves that the Company has wise and skillful advisers, that it places the security of the insured above all considerations of profit or dividend, and that it seeks public support, not by fine-spun professions of underbidding its neighbours, but by acts deserving it.—*Aug. 10, 1861.*

OBSERVER.

The loss to the Company by the recent great fire in Tooley Street was £75,000, and within three days of its occurrence the London Office was put in possession of funds to meet every claim which might be sent in on account of that fire.—*Aug. 4, 1861.*

ROCHDALE OBSERVER.

The "Royal" has not altogether escaped unscathed, its loss being £74,000, a sum of sufficient magnitude to press heavily upon a young Office with limited means at its immediate command, but a mere trifle to this Company.—*Aug. 16, 1861.*

SCOTTISH PRESS.

The Company, in all its departments, continues to advance, and the Annual Report shows in a remarkable way, the care and energy with which it is managed.—*Aug. 21, 1861.*

STOCKTON HERALD.

The amount of business done in Insurance Offices shows the value that the public place upon the protection they offer. In this Company, insurances have of late years enormously increased, so as to place it among the very first Offices. Too much caution cannot be used by persons insuring, as during the last few years a great many Offices have originated and gone down, deceiving the public. There are, however, many Offices worthy of the public confidence, and none more so than the Royal Insurance Company.—*Aug. 23, 1861.*

SUNDAY TIMES.

The reserve fund of the "Royal" at the present moment amounts to very nearly £200,000. The importance of this fact will be obvious to the most casual reader.—*Aug. 4, 1861.*

The Success of the Society.

THERE is no instance in the history of Life Assurance in which progress has been more rapid or success more solid. Established in 1815 without the adventitious aid of Shareholders' capital, when Life Assurance was all but unknown in Scotland, the operations of the Society have attained a magnitude and wide-spread usefulness which the original founders could scarcely have anticipated. The remarkable success which has attended the Society ever since it was founded is exhibited in the following

The Last Bonus

was ONE OF THE LARGEST ever declared by any INSURANCE COMPANY.

The Sums Assured then added to Policies amounted to

ONE MILLION POUNDS STERLING,

which, according to the duration of the Policies, yielded BONUSSES from £1 : 12 : 6 to £3 : 6s. per cent per annum on the original sum assured.

These Bonuses, WHICH IT IS BELIEVED ARE NOT EXCEEDED BY THOSE OF ANY OTHER OFFICE, have all been declared out of Profits actually realized, and every element of Profit ever possessed by the Society, with vastly increased resources, remains for the increase of present and new members' Policies.

Scottish Widows' Fund Life Assurance Society.

Days of Grace.

THIRTY DAYS of Grace are allowed for payment of Premiums, but Policies may be revived within THIRTEEN MONTHS of the Premium becoming due.

Lapsed Policies.

When the Days of Grace have expired, and the Member does not wish to renew the Policy, a sum equal to the Surrender Value thereof, on the last day of Grace, will be paid to him (see Explanation as to Surrender Values, below), or a paid-up Policy, free of future Annual Premiums, for a corresponding sum will be issued, as he may select.

Surrender Values payable on Demand.

Many Offices decline giving any Surrender Value unless the Policy shall have been of a certain number of years' standing, although the premiums paid greatly exceed the risk borne by the Office and the proper expenses of the Assurance. *The practice of the Scottish Widows' Fund is, and always has been, to pay at any time from the day of the issue of a Policy its actual Office value, and even WHEN THE POLICY LAPSES BY NON-PAYMENT OF THE PREMIUMS during the thirteen months within which they may be received, an allowance equal to the Full Surrender Value is paid.*

EXAMPLES OF SURRENDER VALUES OF £1000,
Age at entry being 30.

Duration of Policy.	Premiums paid.	Surrender Value.	Per Centage of Surrender Value on Premiums paid.
One Year	£25 17 6	£8 0 10	31 per cent.

Forty Years	1035 0 0	1071 19 0	104 per cent.
Forty-five Years ...	1164 7 6	1435 6 0	123 per cent.

The Tables of Surrender Values of Policies and Bonuses are published in the Prospectus, so that a person, before he makes his proposal to the Scottish Widows' Fund, can see the progressively increasing value of his Assurance (*except future Bonuses, which of course will still further increase the value*) from the beginning to the end of the transaction.

Loans Granted on Security of Policies.

The Policies of this Society, besides bearing a fixed Cash Value from the first, payable on demand, are also available as First-Class Securities, on which advances can be obtained from the Society at any time. Advances of £50 and upwards, to any amount the value of a Policy will admit of, are granted free of expense and without any other Security. The present rate of interest is 4 per cent.

Scottish Widows' Fund Life Assurance Society.

Indisputable Certificates,

constituting Policies unchallengeable Documents upon any ground whatever, are granted, upon application, to Members of five years' standing. The Laws empower the Directors to refuse or modify the terms of such Certificates, when the issue of the Certificate would, in their opinion, be inconsistent with the general interest.

Foreign Residence without extra Premiums.

Foreign Residence is allowed from the issue of a policy in any part of Europe, in parts of North America, Australia, New Zealand, and other Colonies, in time of peace, *free of charge*; and the Indisputable Certificate granted after the first five years, as explained, *cancels all restrictions in the Policy, and no License or Extra Premium is thereafter required for Travel or Residence in any part of the world.*

Payment of Claims.

Claims are paid in full in any part of the United Kingdom, free of charge, on the simple receipt of the parties entitled. The Policy must be given up, and the Claimant's Title, "*Confirmation*" (in Scotland) "*Probate*" or "*Letters of Administration*" (in England or Ireland), or the *Assignments* (if the Policy has been assigned) require to be produced. *Scotch Title is not required where Claimant holds English or Irish Title.*

Value of the Society's Policies.

The moderate rates of Premium charged; the almost unprecedented largeness of the Bonuses; the fact that the Policy is practically as convertible as a bank note for its value to the member himself at any time; and the absolute security afforded by the unquestionable financial position of the Society for the fulfilment of all its engagements, render Policies of the Scottish Widows' Fund, whether held for family or Business purposes, instruments of the highest value.

All necessary Information sent Free.

The Prospectus contains Tables, showing—the Premiums charged for Assurances—the Bonuses declared at each period of Division—The Surrender Values of Policies—The Cash Values of Bonuses and corresponding Reductions on future Premiums—and the progressive increase in the Business, Funds, and Revenue, since the Society was founded; also detailed explanations and practical examples from all these Tables, with full explanations of the advantages enjoyed by Policy-holders of this Society.
